

CUSTOMER EXPERIENCE:

CHILDREN'S HOME OF EASTON

The Children's Home of Easton
SINCE 1885

HAPPINESS BEGINS AT HOME

The Children's Home of Easton is a nonprofit organization established in 1885 that provides comprehensive care through professional staff who guide, support, and encourage children to believe in their own self worth and reach their full potential. They serve dependent, neglected, and traumatized children who due to circumstances beyond their control are unable to remain at home and/or with their family of origin. They work with both the children and their family of origin to achieve permanency and independence. They strive to prepare each child to cope effectively with the realities of life and to become a productive member of society. Their goal is to build, strengthen, and preserve every family's full potential. They are dedicated to creating family solutions while teaching and remaining true to our four pillars: compassion, respect, integrity and perseverance. For more information visit www.thechildrenshome.org.

"We have a great relationship with ET&T. They always respond quickly and are great at explaining things in terms that we understand."

-Dan McMahon, Director of Development

LIFE MADE BETTER

Of the four IT companies that Children's Home of Easton has worked with, ET&T has delivered the best overall experience.

ET&T was introduced to The Children's Home of Easton through a referral because they were in need of a new vendor, a one stop resource that could handle all their challenging IT and Telecommunication needs.

So far, we have upgraded their hardware infrastructure and took ownership of their managed services environment. Future plans involve security cameras, voice solutions, fiber backbone, and addressing other technology needs now and in the future. The Children's Home of Easton appreciates how seamless our process is from planning to implementation and maintenance.

Discover how ET&T can help with your voice, cyber, surveillance, security, and communication needs.
