

CUSTOMER EXPERIENCE:

WEST CALN TOWNSHIP

There's No Place Like Home

West Caln Township is located in beautiful Chester County, PA. It has a population of over 9,000 and is beloved for its **rural atmosphere and parks**. The township cares deeply about its residents, and encourages them to engage with their community. West Caln's mission is to **make positive impact** in the lives of their residents by contributing to their overall wellbeing.

Always Better Together

The partnership between ET&T and West Caln Township began in 2005 with the installation of an Inter-Tell Axxess phone system. Since then, we have continued to ensure that they have the **best telecommunication system** to fit their unique needs, upgrading them to the Mitel MiVoice Office 250 Converged Platform.

Dependable and easy to use, this new system has increased efficiency. The township has enjoyed features such as caller ID, call forwarding, and unified messaging.

"The system is easy to use and was professionally installed. I recommend ET&T"

- Thomas Siedenbuehl, West Caln Township Manager
